

# Diabetes management just the way you want it.

Your diabetes is unique... shouldn't your diabetes management app be too? Customizable data views and tools as unique as you.

## Your diabetes data, all in one place.

### Add some extra time to your day!

Pull together all the flavors of your diabetes management into one customizable app.

**Your diabetes information on-the go:** Step up your diabetes therapy and track what's important to you with entries anytime: including insulin activity, carbs and photos.

### Features and Benefits

#### 24-hour overview

Everything you need to know about your diabetes available anytime... day or night. Find your last blood sugar results and carb or insulin info as soon as you open the app.

#### Estimated HbA1c

No more surprises - get an estimation of your HbA1c before your lab results arrive. Enjoy peace of mind with instant access to your diabetes metrics. Know where you've been and where you're headed—right at the top.

#### Photo function\*

Good-bye paper log, hello photos. Simplify daily food tracking using mySugr's convenient photo function. Just point, click, and enjoy!

#### Report

Whether in-person or online, take your next doctor check-up to the next level. mySugr Reports make data sharing easy! Available in CSV format with mySugr Basic or in PDF or Excel with mySugr PRO.

#### Smart Search\*

Over 40 unique tags help you decipher trends anytime, day or night! Tag your results to easily find patterns and search for what's important.

#### Reminders & Challenges\*

Never miss a blood sugar check again with mySugr's built-in reminders and improve your diabetes outcomes with fitness missions!

#### Bolus Calculator\*

Insulin math just got a lot easier with mySugr Bolus Calculator, helping you with more confident, less stressful calculations. Integrated bolus calculator support, based on your insulin needs and your meal and snack choices.

\*Available in limited countries

\*These features are available with mySugr PRO.

# The answers you want all in one place.

Get started and let mySugr help you get the results you need. Connect your Accu-Chek® blood glucose meter and automatically import your blood sugar results. Unlock mySugr PRO for free to get the advanced app features like PDF Reports and so much more!

# You don't have to do diabetes alone.

The mySugr app offers simplified diabetes management on the go with personalized views, tools and goals, but why stop there?

Sync your mySugr data to the RocheDiabetes Care Platform for even more diabetes management support. The RocheDiabetes Care Platform provides a secure way to share your diabetes data with your doctor, such as blood sugar results, carbs and insulin doses.<sup>1</sup> With clean, clear views for identifying your pain points, you can work together to optimize your diabetes therapy plan—with less hassle, more insights, and better outcomes.<sup>2,3</sup>

Say goodbye to meter downloads at your next doctor visit!

<sup>1</sup> Data are transferred from manually added values and data or via connected blood glucose meters or Apple Health.
