

The power to personalize care

**Enabling you to quickly connect
to actionable insights for a more personalized approach to diabetes care.**

The RocheDiabetes Care Platform streamlines workflows by quickly providing you with meaningful, actionable insights. This means you spend less time gathering data and can use your consultation time for what really matters—truly getting a better understanding of your patients.

Seamless connections

Encourage diabetes self-management through better connections with a wide range of tools available on the RocheDiabetes Care Platform

Actionable insights

Structured visualizations of key diabetes data can help you identify patterns and draw attention to areas that need rapid intervention or treatment adjustment

Collaborative treatment

Facilitate stronger communication and collaboration between patients and their care team for more timely treatment decisions

Personalized care

Create truly personalized care for people with diabetes using tracking solutions, for more timely and meaningful therapy changes

At a glance

Easy

- Online for less hassle with back-ups and software
- Secure data that conforms to General Data Protection Regulation (GDPR)
- Simple data transfer from 140+ diabetes management devices, and growing

Engaging

- Facilitates more engaging relationships as a result of improved connections
- Easier for people with diabetes to share data with their healthcare team
- Helps patients participate more actively in their diabetes management

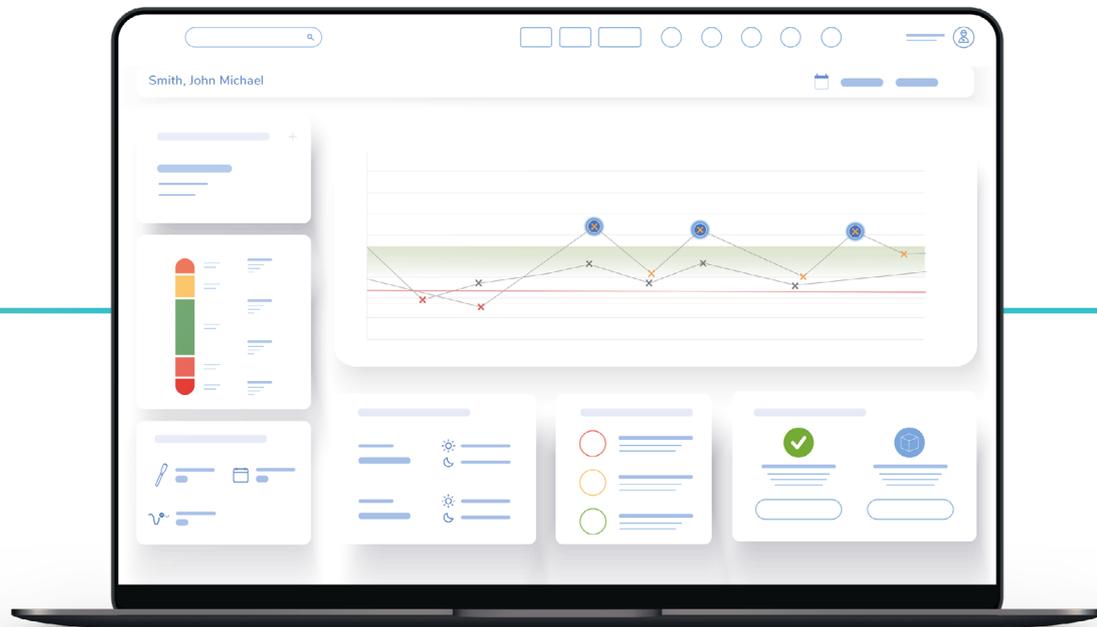

Efficient

- More timely clinical evaluations for day-to-day and long-term aspects of diabetes care
- Tools to enable rapid data insights
- Quickly identify situations that may require action

Enabling

- Optimizes resource management
- Time-saving platform keeps data all in one place to help streamline workflows
